Resolutions Cancer Insurance

Did You Know?

Cancer Facts.

Every year cancer affects more and more people. For young and old alike, the disease knows no boundaries and the cost of treatment continues to rise. According to The National Institutes of Health, **in 2010, the overall costs of cancer were estimated at a \$263.8 billion**, which includes a staggering **\$102.8 billion for direct medical costs.**¹

- About 1,529,560 new cancer cases were expected to be diagnosed in 2010.¹
- Over a lifetime, nearly 50% of men will be diagnosed with some form of cancer.²
- The lifetime risk to women is more than 1-in-3.¹
- Cancer remains the second leading cause of death in the United States.²
- The 5-year relative survival rate for all cancers is 68%, up from 50% in the 1970s.¹
- About 78% of all cancers are diagnosed in persons 55 years and older.¹

Costs Generally Not Covered By Your Primary Health Insurance

- Insurance Co-payments and Deductibles
- Experimental Treatment
- Loss of Income
- Treatment-related Travel and Lodging Expenses

"How will I pay my mortgage?"

"If I get treatment, can I afford my car payment?"

"My budget is already stretched. Now I need extra childcare."

At **Standard Life and Accident Insurance Company**, we know that cancer treatment is expensive and peace of mind plays an important role in a patients' recovery. That's why we have developed our **Resolutions Cancer Insurance**. You concentrate on winning the battle against cancer, and let us help you with some of the costs.

“...let us help you with some of the costs.”

The Nickels and Dimes Add Up

As with any medical treatment program, there are often many incidental out-of-pocket costs involved. And if you've ever been faced with excess uncovered charges from a medical bill, you'll understand the need for supplemental coverage. Supplemental policies can provide a measure of protection and peace of mind when it is most needed.

Out-of-pocket costs may include **deductibles** and **co-payments**, the **cost of transportation** for the patient and family members, and **hotel expenses** during treatment. In addition, **daily living expenses continue** even though there may be a **loss of income** while the patient is undergoing treatment. While individually these costs may seem mundane, when taken together as uncovered expenses, the financial output can quickly add up. On average, **few household budgets are adequately equipped to handle these expenses** and most insurance plans do not cover 100 percent of all costs incurred. This is where **Resolutions** Cancer Insurance comes in.

We Can Help You Handle the Out-of-Pocket Costs

- **Resolutions** Cancer Insurance is a customizable insurance plan
 - you choose the benefits you prefer
 - you choose the amount of coverage you want
- **Resolutions** Cancer Insurance pays benefits in addition to any other coverage you may have
- **Resolutions** Cancer Insurance benefits may be used in any way you choose
 - benefits can be used for other coverage deductibles and co-payments
 - benefits can be used for miscellaneous living expenses
- **Resolutions** Cancer Insurance does not coordinate benefits
 - it will pay any benefits due under the certificate even if that same expenditure is reimbursed under a separate policy

At **Standard Life and Accident Insurance Company**, we want to help you ease the financial burden of medical treatment. You concentrate on winning the battle against cancer, and let us give you one less thing to be concerned about.
